## Part II: Bill Provisions and the Estimated Fiscal Impact Relating to Local Government

HB 84 amends KRS 311.1953 to require a medical examiner or coroner to release identifying information and relevant postmortem examination results to a procurement organization if a decedent's body or body part is medically suitable for transplantation or therapy.

The fiscal impact of HB 84 on local coroner's budgets will be minimal. Some indeterminate time and effort may be required to proactively release known relevant identifying information and postmortem examination results to procurement organizations rather than, as is presently the case, responding to requests from procurement organizations.

## Part III: Differences to Local Government Mandate Statement from Prior Versions

The GA version to this bill does not have any changes from the bill as introduced. There were no committee substitutes or floor amendments adopted.
